**Subject:** RE: CLOSING THE BOOK ON THE ENVIRONMENTAL PROCESS FOR HONOLULU...

Carl,

This is a book we can't put down!

I just spoke to Faith and there are a couple of issues. First, the SHPO will not sign until the Governor's office completes their review. Faith has calls into the Chief of Staff. Second - the Rear Admiral for the Navy that was briefed and was ready to sign is out of the office all week.

Tomorrow at noon (PST), I will talk to Faith about her status in resolving this. We may have to go to plan B and have counterpart signatures and if we do, I will send Leslie's signed copy to Blythe.

On the ROD, Renee said she was fine except for a question she raised with Chris. I plan to check-in with Chris in the morning.

Given that everyone signs off, Leslie is ready to sign.

Ray

**Subject:** CLOSING THE BOOK ON THE ENVIRONMENTAL PROCESS FOR HONOLULU...

I do not know where matters stand regarding execution of the programmatic agreement or the record of decision, but the Administrator expects to be able to tell the Mayor next Tuesday that the environmental process has been wrapped up. Closing the book on the environmental process for Honolulu remains a top priority for the Administrator. Please advise me at your earliest convenience where matters stand. Many thanks.
