Hi Liz -

As I related in my email message, here is the version of the PA in which we incorporated Laura Thielen's text regarding the PA Manager and the revisions proposed by NPS. Talk to you soon.

Faith

<<PA Draft Sep 7-2010.docx>>

Hi Faith, I removed the section we developed for an "independent contractor" for the now "Project Manager" position and incorporated Laura's words verbatim. I did not know what she meant in a couple of places she left blank for references. We'll need to clarify those with her. There is also a need to develop an appendix to describe the process that the PA Project Manager will follow to receive and review any comments from consulting parties on other matters not addressed in the PA or not part of the identified adverse effects. That should be pretty straightforward, but I'm sure it could be a reason for a delay for DLNR and NPS. I will try to work out an outline.

This version contains all the comments we have received to date from NPS and DLNR. We may have some issues with what Elaine sent, but if we can retain the timeline in this version (that she seems concerned about), at least we can keep them from taking an inordinate amount of time for review. I assume that will get some coverage tomorrow.

Please review this and let me know if anything is squirrely because of the changes. I read through it and think I caught them, but I'm doing this so we can distribute it for tomorrow's discussion and could easily have missed something.

Thanks!

Steve
