Subject: RE: Honolulu Noise Analysis

Joe

I have asked PB's environmental lead for the Honolulu LRT project to find the information you requested. Hope to get back to you within the next few days.

Subject: Honolulu Noise Analysis

Steven:

I cannot find what noise analysis was done, if any, to decide that there are no noise impacts at the rail maintenance facility near the Leeward Community College. Was this issue simply dismissed or was there an analysis? Also what analysis determined that the traction power stations will not have any noise impacts?

Whatever information you can impart to enlighten us on noise questions would be greatly appreciated.

Thanks.
