Scott:  
As you can see from the message thread, we shared the 4(f) chapter of the Honolulu, October, 2009 AFEIS with NPS. We did this in order to assist in developing the 106 PA.  
Is this FOIAble?  
Thanks;  
jim

Subject: FOIA on Honolulu High Capacity Transit Corridor

James - Elaine Jackson-Retondo and I are working on a FOIA from the Hawaii Reporter which seeks "copies of any correspondence made in 2008 and 2009 with the City and County of Honolulu, the Honolulu City Council, the State of Hawaii, any public interest groups or any federal agencies about the proposed Honolulu rail project."

Elaine has a copy of an October 21 email from you transmitting the relevant 4F chapter from the Oct AFEIS. We believe we should fess it up. Do you have any objections to our release of the email and the chapters.
