Hi Russ –

Appreciate all your efforts to get this moving. Once it is received by NPS, there are still a few more steps to be taken.

Thanks.

Faith

Faith,

Morris indicated that it was just about ready to go when we last talked. It has not come out of DLNR yet, but I assume it's strictly procedural. I'll try to pry it loose next week.

Sorry for the delay. Please call or email me if you have any questions.

Russ

Hi Russ –

When we last spoke about a week or two ago, I related that Morris Atta had intended to forward the draft easement document for Aloha Stadium to you on November 12th or 13th. You mentioned that you did not recall seeing it, but that you would check on it. I have not heard from you for a while and so I am checking on the status of the draft easement document. Were you able to locate it and send a copy to David Siegenthaler of the NPS? I am sorry I am such a “bug”, but we need the determination from NPS real soon.

Thanks for your help.

Also, please let me know when our architects can brief you on their plans for the Aloha Stadium station. They can meet any time after December 2nd.

Hi Russ –

Just checking to see if you were able to provide David Siegenthaler of the National Park Service with a copy of the draft easement document for use of the Aloha Stadium property by our rail project. He needs to see this and pass it on to GSA for their review, prior to his making a determination that the project use of the Aloha Stadium property is in keeping with the recreational use of the property.

The last communication that I had regarding this matter was that Morris Atta of DLNR-Land Division was reviewing the draft easement. Any help you can give us to move this along will be greatly appreciated.

Also, please let me know when would be a good time for our architects to show you some of their ideas for the station.

Thanks.
