**Subject:** Honolulu High-Capacity Transit Corridor Project - Scoping Meeting/Cooperating Agencies

Hi Everyone –

Just checking on the status of the Scoping Report that we sent you. We want to post the report on our website, but have not heard from you regarding whether you have any problems with the report. Will you be sending us a written response regarding the documents that we send to you?

Also, FHWA – Hawaii Division and Hawaii DOT have verbally told us that they will be cooperating agencies for this project. However, written confirmation of this will be made in response to an invitation to be a cooperating agency. I believe this invitation should come from FTA and that this may be the time to send it. We have a draft invitation letter that we could provide for your consideration. Please let me know how we should proceed in this matter.

Thanks.
