Susan –

We think it's necessary to respond to the SHPO and SHPD pretty quickly. Liz has composed an e-mail (below) that we propose to send to the SHPO and SHPD with a copy to the ACHP. Chris has looked over the note and concurs. I propose to speak with Toru (who is trying to get in touch with me) before the e-mail is transmitted and advise him that the City should back off and not respond in any way, shape, or form to the e-mail. Do you want us to delay sending the e-mail until you have had an opportunity to discuss the matter with us? Thanks. Carl

I understand that Susan will not be back until next week. I think we need to send a response sooner. Here's a draft:

Laura and Pua,

Late yesterday, the City forwarded FTA a copy of letter that they sent to you dated June 8th. FTA was not consulted by the City in the development of this letter. FTA does not agree with or support the perspective of the City that the Section 106 consultation process has been concluded. FTA does not consider consultation under Section 106 to be finalized until the PA is executed with FTA, SHPO, and ACHP signatures. With some outstanding comments made by your office for FTA to consider and discuss, the PA is in draft form and not ready for signature.

FTA would like to apologize for any confusion caused this letter and would like to make clear that any communication requesting signature on the PA will come from FTA and not the City. The City may at their discretion decide consult with your office on matters outside of the Honolulu Transit Project undertaking.

Liz
