Subject: Kamehamehs Schools properties

Kenneth,

After our meeting the other day we had additional meetings with the other departments within KS that will need to be included relative to any future disposition of lands along the proposed route of the mass transit system.

Before we provide any maps reflecting the lands that may be affected by the selected routing of the transit system, we would like to share this information after you have conducted your public briefings and have a better idea of the probable option that will be pursued to the next level of discussion and evaluation.

At that time we will be able to meet with you and have further discussions regarding KS lands.

Thank you,

Bob
