Subject: Hello from TPE!

Hello Debra -

I am taking advantage of the email that Ray just sent out with your personal email address to introduce myself. My name is Liz. I work in Carl's group and I am TPE-30's contact for Region 8 and 9 projects. Lately, my participation in Region 9 projects has primarily been on Honolulu Transit project and assisting a number of LA projects. In addition to assisting on Region 9 projects, I serve in the role as FTA's Historic Preservation Office, work on climate change and livability issues (though that is transitioning to other individuals within our office), and have been heavily involved in identifying the environmental benefits metric for the proposed New Starts rulemaking.

Informally, the regional headquarters contact has served as a sort of "buddy" to new regional environmental protection specialists. In the buddy role we can just serve as a TPE contact for questions and seeking answers, if needed, from other headquarters people.

Anyway, welcome to your first week at FTA. When you have a phone and computer, let me know and we can set up a time to chat.

Best,

Liz
