**Subject:** FAA revision

I learned that FAA sent their changes to FEIS to you. I heard it's 40 pages long. I can't imagine what they got to say that's that long now that we moved out of the RPZ. SF office would not share the FAA comments saying it has to come to us from DC. Would you send us the comments/revisions so we can prepare for the change.

I also left a message on your cell since I heard from SF that Renee recommends that FTA not respond to our 4/5 letter. Needless to say that I am perplexed that the game plan changes again after waiting for over 2 weeks for the response. The Mayor expects some kind of response from FTA quick so that we are not accused of being non-transparent about the process. A lack of documentation and reporting just results hurts us.
