Subject: RE: Abstract/Comment Sections and Preface

Hi Faith,

Please add the following language to the abstract:

FTA is interested in and requests public comment on the issues of project phasing and logical termini:

- **FTA requests public comment on the construction phasing of the High-Capacity project, and whether project phasing best addresses transportation needs in the corridor.**
- **FTA requests public comment on the location of the East Kapoeli Station and whether this is a logical terminus.**

This language has been reviewed by multiple individuals in HQs and I suggest that you move forward and end the back and forth otherwise we will not have an October release.

Also, the FTA will accept charges for the paper copy however, \$50 is excessive. I think you will get the same effect with a nominal fee of \$5 or \$10. We understand the issue of wastage and a nominal fee should curtail it.

I am leaving the office at 4pm pst and I will need confirmation by 3:30pm that FTA's comments have been fully accepted before I e-mail you the signed cover page. I will back Tuesday, October 28.

Thank you,

Ray
