Seems as though it's coming together, Ray. Many thanks. Do you think Leslie would mind placing a call to the Administrator after he signs off on the record of decision to let the Administrator know that he can tell the mayor on Tuesday afternoon that the environmental process has been completed? The Administrator would be very, very, very happy—ecstatic—to hear that. Thanks again. Carl

I spoke to Charlene 15 minutes ago and she has everything she needs from us. She is looking for an internal ACHP signoff memo for her acting director.

Faith said she would have comments on the monitoring plan soon.

Hi Charlene,

Here is the final PA with a scan of the signatures and correspondence. I have not sent you the maps and adverse effect documentation since they are very large files. However, if you need them, Joe Ossi is prepared to walk over hard copies for you.

I can be reached at 415 744-2802 or my cell at 415 517-3213. Joe Ossi can be reached 202 366-1613.

Thank you so much,

Ray Sukys
