I just got a copy of this letter from Dorval, Leslie, and am sending it along to you in case you haven't seen it yet.

**Subject:** FW: Signed Letter

Jim, late yesterday evening and early this morning, Peter Rogoff, Dorval Carter and Carl Bausch, with some minimal input from me, discussed a letter that Mayor Hannemann proposed to send to FTA about the status of the alignment of the Honolulu project near/on the airport. (You may recall this came up before, but the letter was not sent.) Here's the letter FTA just received. I believe this represents at least part of what the Mayor will discuss at the Transportation Committee meeting at the City Council session today. Susan
