Attachments: FTA Procedures for Filing_August 2009.pdf

Hello Faith,

I would be available to talk this afternoon after 3 pm EST.

Regarding Notices of Availability, FTA relies on the notice in the Federal Register that EPA publishes for EISs. FTA writes a letter to EPA when we deliver the document. In that letter FTA will mention the comment period on the FEIS.

Other publications announcing availability of the FEIS is the City's responsibility. We request that publications are included in local newspapers, project email lists, the project website, and other announcements as needed. Ted or Ray may request to review them before publication. It is up to them.

For the project record, the City should send copies of published notices of availability from newspapers and newsletters to FTA.

Additional information on the number of copies to provide FTA and to send to the National Park Service are attached.

Liz

Hi Liz –

Thanks for all your hard work on our project thus far. We are not done yet. I want to make certain we do whatever is required and so I would like to speak with you regarding the steps that need to be taken regarding the distribution of the FEIS, the filing requirements, and notification requirements.

Our first priority is to get the documents printed and FedExed to you by Thursday, June 17th so that the FEIS can be filed with EPA on Friday, June 18th for a NOA publication in the Federal Register on June 25th.

Do you write the NOA? Do we need to indicate that comments will be accepted for 30 days from NOA publication? These are some of the questions that I have.

Please let me know when would be a good time to call you tomorrow (Tuesday).

Thanks again.
