Mr. Lloyd Ignacio
1015 Aoloa Place, #334
Kailua, Hawaii 96734

Dear Mr. Ignacio:

Mahalo for submitting comments during the scoping process for the Honolulu High-Capacity Transit Corridor Project. Your comments, along with over 500 others, were reviewed and considered during the development of the final purpose and need, alternatives being evaluated in the Alternatives Analysis, and scope of environmental analysis for the project. The outcome of the scoping process is summarized in the scoping report which is available for review at the project website www.honolulustransit.org. All of the comments received during the scoping process are included in the appendices to the report, and also may be downloaded.

The purpose of the Honolulu High-Capacity Transit Corridor Project is to provide improved mobility consistent with existing and planned development patterns. While the project may result in accelerated development along the corridor, it would not change development patterns already established in island-wide plans.

Sincerely,

MELVIN N. KAKU
Director
