HONOLULU HIGH-CAPACITY TRANSIT CORRIDOR PROJECT
Stipulations Proposed by Section 106 Consulting Parties

Mitigation	Proposer	Status	Explanation of Status
Public access to documentation	HHF	Included	The City has committed to place all project-generated historic documentation on the project website and make it available for any other appropriate entity to host.
National Register Nominations	SHPD/ HHF	Included	The City has proposed to complete a number of nominations with specific resources to be determined in coordination with the SHPD. In addition to the individual nominations, the City has proposed a Multiple Property Submission for modern architecture that will assist the SHPD in its evaluation of other modern architecture resources associated with other undertakings. Also, the City will update district nominations for Pearl Harbor (pending Navy agreement) and Chinatown.
Station Design and Context Sensitive Solutions	HHF	Included	The Project is following a design pattern guidebook for context sensitive design. All stations designs are being coordinated with the local communities and all Section 106 consulting parties have been added to the invitation list for the station design workshops.
Preparation of HABS and HALS forms	SHPD	Included	Per NPS consultation, the park service will be consulted for appropriate expectations.
Additional photo and video documentation of the corridor	SHPD	Included	Will be submitted to the SHPD for their use.
Replace affected Lava Rock Curbs	SHPD	Included	Will be retained and replaced
Preparation of Cultural Landscape Reports	SHPD	Included	Per SHPD request these will be completed.
Preparation of Historic Context Studies	SHPD	Included	Per SHPD request these will be completed.
Traditional Cultural Properties Study	Several during PA party meeting	Included	City will complete a TCP study.

Interpretative Materials and Signage	OHA and Others	Included	City will install historical and cultural context materials in stations and provide other general audience materials to increase awareness.
Post-construction Noise Monitoring at WWII Valor in the Pacific National Historic Monument	NPS	Included	Will be provided as included in Final EIS.
Completion of Archaeological Inventory Surveys before completion of Final Design	OIBC	Included	Archaeological Inventory Surveys will be completed once proposed footprint limits of construction are known and sufficiently early in Final Design to allow avoidance alternatives to be evaluated if resources are found.
100% Archaeological Review of areas of disturbance in high-risk areas	OIBC	Included	Archaeological Inventory Surveys are being developed that are risk-aware. Project will do 100% review of areas of disturbance between Nuuanu Stream and Ala Moana Center.
Develop general burial treatment plans	OIBC	Deleted Per SHPD	The City will develop generalized burial treatment plans prior to investigation, rather than waiting until discovery. Specific plans will be completed if any resources are discovered.
If relocation is selected for iwi, do so in protected location nearby	OIBC	Included	The City will provide locations at nearby stations or other transit property where that is the most appropriate location for reinterment.
Curation of Archaeological Resources	SHPD	Included	The City will pursue opportunities to curate recovered resources in a manner accessible to the public.
City Historic Preservation Program (Certified Local Government)	HHF	Not Included	Requires establishment of a Historic Preservation Commission and operation of a program which meets state and federal standards; would be a new City program entirely outside of transit project
Main Street Program (National Trust for Historic Preservation)	HHF	Not Included	Would assist neighborhood-based organizations with revitalization of traditional neighborhood business districts; could provide technical and/or financial assistance to Main Street organizations; program previously existed as a State program; would be a new City program entirely outside of transit project
Restoration of Historic Irwin Park	HHF	Not Included	Project would not have a direct impact on park; park is currently a parking lot under State jurisdiction

Formatted: Highlight

Formatted: Highlight

Rehabilitation Fund for Historic Resources	NTHP	Not Included	Would require setting up of fund and rules regarding granting of funds; transit funds could be expended for actions that are not a direct impact of the project, such as rehabilitation of resources not adversely affected by the project; local funding source (GET surcharge $) limited to paying for construction and operation of system; questionable whether federal funds could be used, subject to FFGA approval
Architectural historian on TOD planning staff	HHF/ SHPD	Not Included	TOD is not a Project activity; City Department of Planning and Permitting has responsibility for TOD planning

HHF = Historic Hawaii Foundation
NPS = National Park Service
NTHP = National Trust for Historic Preservation
OHA = Office of Hawaiian Affairs
OIBC = O'ahu Island Burial Council
SHPD = State Historic Preservation Division
