MEMORANDUM

TO: MELVIN N. KAKU, DIRECTOR
DEPARTMENT OF TRANSPORTATION SERVICES

FROM:  EUGENE C. LEE, P.E., DIRECTOR
DEPARTMENT OF DESIGN AND CONSTRUCTION

SUBJECT: FARRINGTON HIGHWAY AND SALT LAKE BOULEVARD SEGMENTS
HONOLULU HIGH-CAPACITY TRANSIT CORRIDOR

The approved minimum operable segment (MOS) alignment for the Honolulu High-Capacity Transit Corridor Project (HHCTCP) includes Farrington Highway and Salt Lake Boulevard. Both Farrington Highway (N-S Road to Fort Weaver Road) and Salt Lake Boulevard (Maluna Street to Ala Lilikoi Street) were planned for future road widening by DDC; transit facilities were not planned to be included in either one of these roadway projects. In consideration that the transit facilities would dictate the configuration of these roadway segments, we request that the EIS and project implementation for the HHCTCP include the appropriate road widening with the transit project.

Should you have any questions, please call me at Extension 8480.
