As requested, here are Carol's comments attached. Her primary concern was the appropriateness of the Mayor's favored Sand Island alternative and its relation to a "Purpose and Need" that was obviously contrived to justify that alternative. The Sand Island issue has now been resolved with help from EPA, HI DOT, and FHWA, all of whom sent letters expressing the same concern as Carol about Sand Island. Honolulu has now dropped the Sand Island alternative and is revising the statement of purpose and need.

FYI -- see below Region 9's comments on Carol's work. Carol did this Honolulu work, in part, after she had already gone to WMATA, though I told her not to take any FTA work with her to WMATA.
