Subject: Honolulu High Capacity Transit

I, Johnnie-Mae L. Perry OPPOSE the Honolulu High Capacity Transit for these reasons:

- Decades of debt to the taxpayers
- The thousands of semi-trailers traveling daily in and out of 96792 over the course of this project on Farrington Hwy. and small neighborhoods.
- Hawaii have a major problem with structural "rust." The cost to combat this problem is enormous.
- Health & Safety issue in 96792 because of the location of the private landfills.

Again, I OPPOSE the Honolulu High Capacity Transit project!

Johnnie-Mae L. Perry
Resident of 96792
