Subject: projects update

1. Honolulu: All comment responses will be reviewed and submitted to Chris by COB Wednesday. Liz recently found out the SHPO claimed insufficient information and the city will need to respond. There is a meeting set with the burial council for next week.
2. SOPs: Megan and Liz met with TPM and their consultants. The consultants will be available to work on the Environmental SOPs. We will gather information and provide that to them to draft the SOPs which we will then review. After Honolulu is complete Liz and Megan will talk with the consultants to go over the details and work out a timeline. All of us will begin gathering information to be save don the O drive.
3. June Training: The money has been transferred over for use for the training. We are still set for June 15th. Andrea is looking into where the new hires can complete their HR paperwork.
4. TRB: all is moving forward with the sessions and booth.
5. Before and after evaluation. I will be reviewing the proposal this week for Andrea to pass on.
6. Liz met with the TPE group regarding the web site update. Their first phase contribution is complete.
