Hi Ray -

I am forwarding your email to Jim Dunn, Steve Hogan and Harvey Berliner of our project team to determine the select members that will be attending the meeting with FAA (Steve Wong). I will get back to you later today with the names and arrangements for any pre-meeting.

Thanks.

Faith

Hi Faith,

Next week, I will be in Honolulu late Monday morning and departing Tuesday afternoon for Kauai. I have arranged a meeting with Steve Wong and I wondering if selected representatives from your project team would be interested in attending. Hopefully, someone could bring a drawing of your proposed mitigations and an overall list of what needs to be done to mitigate the rail project impacts.

I am arriving at 11:05am and would be available to meet in advance of the FAA meeting to discuss your latest approach on this issue.

Note, Steve's e-mail below with the meeting details at 2:30pm.

Ray

Aloha Ray et al:

Just confirming meeting on 10/19 at the Interisland Terminal, Conference Rm. A. We'll discuss the rail alignment issues and take Ray up to the old ATCT for a view.

Thank you.

Steven Wong
