Subject: RE: Letter?

Thanks. We have to see what level of damage control we have to do when we get the letter. It seems we are in OK ground on the Sec106 issue with the City Council passing the reso on Oct 27. But the airport issue did not go well this morning. FAA is fine but the State DOT (airport staff) wants to wordsmith the letter further. So Jim Dunn (PB's chief engineer) is trying to meet with the HDOT director today to see if they can expedite it. Our goal is to have the FAA local chief (Steve Wong) sign the concurring bar before Ray meets with him on Monday at 2. We want to avoid Ray talks FAA out of concurring with us. Other than that, everything is fine.
