**Subject:** letter on airport issues

Faith, as you likely heard, we had a call yesterday afternoon. One point that was raised was that the City would be writing a letter to FTA outlining that FAA had concurred with the approach represented in the FEIS. I'm sorry if I misunderstood you, but I thought you said there would be a concurrence letter that FAA would actually sign indicating they were on board. We need something in writing from FAA, not just a letter from the City stating that FAA concurs. Sorry for any confusion.

Ted
