**Subject:** e-mail to Honolulu requiring that the City sign as a binding signatory

We had been discussing the release of the FEIS and my e-mail does not do a good job of communicating that we are linking a signed PA to the release of the FEIS. My e-mail comes after an e-mail by Joe Ossi who very firmly believed that the PA should be signed in the FEIS.

Ted does not remember hearing Jim Barr say that it would be okay if the PA was unsigned for distributing the FEIS.

**Subject:** RE: Honolulu Rail Project Section 106 Coordination

Faith,

Over the past week, FTA has been discussing the issue over whether we would allow the PA to move forward without the City's signature binding it to the terms of the PA. We have concluded that it is necessary to have the City sign the document as a binding signatory.

Ray
