Subject: Slater Comment Response Honolulu FEIS
Attachments: Honolulutraffic.com - Slater.doc

Joe and Jim,

Could you review the City's response to Chris Slater's comment on the DEIS? Region 9 indicated that you were involved in preliminary discussions regarding the managed lane alternative that Chris Slater proposed. We are reviewing the response letters to make sure that the City at least mentioned all concerns/points raised by the commentor and, of course, to make sure that the responses are actually technically correct. Slater's comments concern the range of reasonable alternatives, the locally preferred alternative, unjustifiable forecasts, and so on. These are the particular areas that it would be helpful to have your review, Jim.

The City's draft response is attached. I pulled the comment out from the FEIS Appendix A and place it on the S Drive. S:\Ualena\Comment Response

We are hoping to have these reviews completed by COB tomorrow. Please let me know if you would need more time and how much time you would need.

Thank you,

Liz
