Hi Ray –

Our consultant has already requested a species list for the corridor. I should have told them to cc FTA on their letter. I will be sending Donna copies of the letters that were sent to USFWS, National Marine Fisheries Service, and the State Department of Land and Natural Resources to request “species lists”.

It seems likely that we will have section 7 issues. Do you know the threatened or endangered species there or do we need to write a consultation letter with USF&W requesting a list for your area?

Hi Ray and Donna –

One of our stations in the Waiawa Interchange area may be in wetland area. Also, the alignments cross several streams. We need to discuss these issues with the COE.

FTA needs more information as to why the Corps would be a cooperating agency.

Hi Donna and Ray –

Attached are draft cooperating agency invitation letters for your use. At this time, we are anticipating that only FHWA and SDOT will be cooperating. There has been some talk about the Army Corps of Engineers, but a meeting has yet to be scheduled with them.
