Subject: Honolulu ROD and Responses to Comments on the PA

All –

I have added my comments on the Honolulu Transit ROD to the S drive under the folder (S:\Honolulu\ROD and Comments on FEIS\ROD). The City prepared a substantial section on alternatives considered. I feel like they have done a very thorough job describing those alternatives. I did have some questions on the description of certain screening criteria, including “supplier competition” and organization of the alternatives elimination and screening processes.

The ROD also includes a summary of comments from agencies and a summary of general comments received from the public. In this document, the City did not respond to all comments. However, a summary of these comments should be fine if they are responded to in a comment/response document attachment. Please let me know if you think otherwise. Currently, this ROD does not list the comment/response matrix as an attachment.

Please review the ROD when you have time. I would like to send comments on the ROD to the City early next week.

Also, I have saved the comments on the PA and preliminary responses to those comments on the S drive under the Honolulu folder. I will look into setting up a meeting to discuss these responses to comments on Monday with the City.

Thank you,

Liz
