Notice of Availability of the Final Supplemental Environmental Impact Statement/Section 4(f) Evaluation and Amended Record of Decision for the Honolulu Rail Transit Project

I. **Notice of Availability:** The Federal Transit Administration (FTA) and Honolulu Authority for Rapid Transportation (HART) have released a Final Supplemental Environmental Impact Statement/Section 4(f) Evaluation [EIS/4(f)] and Amended Record of Decision (ROD) for the Honolulu Rail Transit Project (also known as the Honolulu High-Capacity Transit Corridor Project) dated September 2013. The Final Supplemental EIS/4(f) was prepared to address the Judgment and Partial Injunction of the United States District Court for the District of Hawaii in *HonoluluTraffic.com, et al., vs. Federal Transit Administration, et al.*, Civ. No. 11-00307 AWT. The Final Supplemental EIS/4(f) for the Honolulu Rail Transit Project is a limited-scope document that evaluates the prudence and feasibility of the Beretania Street Tunnel Alternative and reconsiders the no use determination for Mother Waldron Neighborhood Park. This document addresses agency and public comments on the Draft Supplemental EIS/4(f) and documents consultation with the State Historic Preservation Officer regarding traditional cultural properties (TCPs).

The FTA has issued an Amended ROD, which amends the ROD previously issued in January 2011. The ROD has been supplemented with a section pertaining to this Final Supplemental EIS/4(f). The findings made in the January 2011 ROD, however, are unaltered, except where the Amended ROD expressly alters them.

The Final Supplemental EIS/4(f) is available on the project website at www.honolulutransit.org and may be reviewed at the following locations: City and County of Honolulu Municipal Library, all O'ahu public libraries, or Honolulu Authority for Rapid Transportation, 1099 Alakea Street, Suite 1700, Honolulu, Hawaii 96813. A disk containing the Final Supplemental EIS/4(f) may be requested from HART at no cost.

II. **Project Description:** The Honolulu Rail Transit Project is an exclusive right-of-way rail project being developed by HART with funding from FTA. The Project includes the construction and operation of a 20-mile, elevated fixed guideway transit system along the Airport Alignment, extending from East Kapolei to Ala Moana Center. The scope of the Final Supplemental EIS/4(f) is limited to the evaluation and findings under Section 4(f) of the Department of Transportation Act related to the Beretania Street Tunnel Alternative and Mother Waldron Neighborhood Park. In addition, the Final Supplemental EIS/4(f) incorporates by reference the evaluations of previously unidentified aboveground TCPs within the project corridor.

III. **Contact Information:** If you have questions about the Project, or about the Final Supplemental EIS/4(f), please contact Mr. Ted Matley, FTA Region IX, at (415) 744-3133 or Mr. Daniel A. Grabauskas, HART, at (808) 768-6159.

Mr. Daniel A. Grabauskas, Executive Director and CEO
Honolulu Authority for Rapid Transportation
