HART'S BUSINESS OUTREACH PROGRAM

HART CEO Dan Grabauskas addresses business owners at a recent Business Outreach Program meeting

The Honolulu Authority for Rapid Transportation (HART) has in place a Business Outreach Program to assist businesses along the 20-mile alignment during rail construction.

The program is designed to keep businesses informed and updated on construction activities, and to provide business-oriented outreach programs to assist those who are affected by the work.

HART launched the outreach program for the business along the West Oahu/Farrington Highway and Kamehameha Highway construction sections of the project via two major community meetings.

HART plans to expand the program to the Airport and City Center sections of the project

as construction activity progresses into downtown Honolulu.

The HART Business Outreach Program includes:

- HART's Business Alliance Program with meetings and weekly construction alerts
- Business sign program with directional access and "Open for Business" signs
- Detailed information for customers about area construction activity and access
- Additional business resources in partnership with the Mayor's Office of Economic Development, U.S. Small Business Administration, the Hawaii Small Business Development Center, and the Mink Center for Business and Leadership
- Electronic online offer program for additional [customer outreach](#)
- Social media and marketing workshops
